fib-conceptualdesign2027@polimi.it

The conference aims to promote the exchange of ideas and experiences in the **conceptual and structural design of reinforced concrete structures**, with a strong emphasis on the active involvement of **young designers and researchers**.

Now in its **fifth edition**, the conference is a well-established international forum, following successful events in Madrid (2019), Solothurn (2021), Oslo (2023), and Rio de Janeiro (2025).

By bringing together engineers, researchers, academics, manufacturers, investors, and developers, the conference provides an open platform for dialogue on innovative and sustainable approaches to concrete design, highlighting their contribution to the Sustainable Development Goals.

Marco di Prisco | Matteo Colombo

Scientific Committee Chairs

Paolo Martinelli

Organizing Committee Chair

KEY DATES

- Abstract submission: **15 October, 2026**
- Full paper submission: **15 March, 2027**
- Conference: **6 to 8 September, 2027**
